B.R. Wells

Arkansas Rice Research Studies 2013

R.J. Norman and K.A.K. Moldenhauer, editors

University of Arkansas System

Arkansas Agricultural Experiment Station
August 2014
Research Series 617
Bobby R. Wells was born July 30, 1934, at Wickliffe, Ky. He received his B.S. degree in agriculture from Murray State University in 1959, his M.S. degree in agronomy from the University of Arkansas in 1961, and his Ph.D. in soils from the University of Missouri in 1964. Wells joined the faculty of the University of Arkansas in 1966 after two years as an assistant professor at Murray State University. He spent his first 16 years at the University of Arkansas Division of Agriculture Rice Research and Extension Center near Stuttgart. In 1982, he moved to the University of Arkansas Department of Agronomy in Fayetteville.

Wells was a world-renowned expert on rice production with special emphasis on rice nutrition and soil fertility. He was very active in the Rice Technical Working Group (RTWG), for which he served on several committees, chaired and/or moderated Rice Culture sections at the meetings, and was a past secretary and chairman of the RTWG. He loved being a professor and was an outstanding teacher and a mentor to numerous graduate students. Wells developed an upper-level course in rice production and taught it for many years. He was appointed head of the Department of Agronomy in 1993 and was promoted to the rank of University Professor that year in recognition of his outstanding contributions to research, service, and teaching.

Among the awards Wells received were the Outstanding Faculty Award from the Department of Agronomy (1981), the Distinguished Rice Research and/or Education Award from the Rice Technical Working Group (1988), and the Outstanding Researcher Award from the Arkansas Association of Cooperative Extension Specialists (1992). He was named a Fellow in the American Society of Agronomy (1993) and was awarded, posthumously, the Distinguished Service Award from the RTWG (1998).

Wells edited this series when it was titled *Arkansas Rice Research Studies* from the publication’s inception in 1991 until his death in 1996. Because of Wells’ contribution to rice research and this publication, it was renamed the *B.R. Wells Rice Research Studies* in his memory starting with the 1996 publication.
FOREWORD

Research reports contained in this publication may represent preliminary or only a single year of results; therefore, these results should not be used as a basis for long-term recommendations.

Several research reports in this publication will appear in other Arkansas Agricultural Experiment Station publications. This duplication is the result of the overlap in research coverage between disciplines and our effort to inform Arkansas rice producers of all the research being conducted with funds from the rice check-off program. This publication also contains research funded by industry, federal, and state agencies.

Use of products and trade names in any of the research reports does not constitute a guarantee or warranty of the products named and does not signify that these products are approved to the exclusion of comparable products.

All authors are either current or former faculty, staff, or students of the University of Arkansas System Division of Agriculture, or scientists with the United States Department of Agriculture, Agricultural Research Service. For further information about any author, contact Agricultural Communication Services, (479) 575-5647.

ACKNOWLEDGMENTS

Most of the research results in this publication were made possible through funding provided by the rice farmers of Arkansas and administered by the Arkansas Rice Research and Promotion Board. We express sincere appreciation to the farmers and to the members of the Arkansas Rice Research and Promotion Board for their vital financial support of these programs.

CONTENTS

OVERVIEW AND VERIFICATION

Trends in Arkansas Rice Production, 2013
   J.T. Hardke ................................................................. 13

2013 Rice Research Verification Program

BREEDING, GENETICS, AND PHYSIOLOGY

Development of Aromatic Rice Varieties
   D.K. Ahrent, K.A.K. Moldenhauer, C.E. Wilson Jr., X. Sha,
   J.M. Bulloch, B.A. Beaty, M.M. Blocker, and V.A. Boyett .................. 52

Development of Hybrid Rice Cultivars
   G.L. Berger, G. Lee, Z.B. Yan, X. Sha, K.A.K. Moldenhauer,
   J.T. Hardke, C.E. Wilson Jr., and C.W. Deren .............................. 58

Molecular Characterization of Parental Lines and Hybrids In
a Hybrid Rice Breeding Program
   V.A. Boyett, G.L. Berger, V.L. Booth, V.I. Thompson,
   S.A. Simpson, and B. Scheffler ........................................... 64

Lakast, A High Yielding, Very Short Season, Long-Grain Rice Variety
   K.A.K. Moldenhauer, X. Sha, G.L. Berger, J.T. Hardke, R.J. Norman,
   C.E. Wilson Jr., Y. Wamishe, R.D. Cartwright, M.M. Blocker,
   D. McCarty, D.K. Ahrent, V.A. Boyett, D.L. Frizzell, J.M. Bulloch,
   E. Castaneda-Gonzalez. C.D. Kelsey, and S. Belmar ...................... 74

Breeding And Evaluation For Improved Rice Varieties—The
Arkansas Rice Breeding And Development Program
   H. Sater, K.A.K. Moldenhauer, X. Sha, G.L. Berger, J.T. Hardke,
   R.C. Scott, Y. Wamishe, C.E. Wilson Jr., R.J. Norman, D.K. Ahrent,
   M.M. Blocker, D.L. McCarty, V.A. Boyett, D.L. Frizzell,
   J.M. Bulloch, C. Kelsey, S. Belmar, and E. Castaneda-Gonzalez .......... 81
Development of Superior Medium-Grain and Long-Grain Rice Varieties for Arkansas and the Mid-South

PEST MANAGEMENT: DISEASES

Rice Breeding and Pathology Technical Support Program
S.B. Belmar, C.D. Kelsey, K.A.K. Moldenhauer, Y. Wamishe, and D.L. McCarty ................................................................. 96

A Preliminary Study of a White Smut Infecting Rice in Arkansas
A.C. Jecmen and D.O. TeBeest ................................................................. 101

F. Rotich, C. Feng, Y. Jia, D.E. Groth, and J.C. Correll ........................................ 109

Colonization of Rice Florets and the Development of Sori on Rice Cultivars Susceptible to Ustilaginoidea virens
D.O. TeBeest and A.C. Jecmen ................................................................. 116

Development of Short-Term Management Options for Rice Bacterial Panicle Blight Disease
Y. Wamishe, T. Gebremariam, C. Kelsey, S. Belmar, and D. McCarty .......... 133

Development of Practical Diagnostic Methods for Monitoring Rice Bacterial Panicle Blight Disease and Evaluation of Rice Germplasm for Resistance
Y. Wamishe, Y. Jia, M. Rasheed, C. Kelsey, S. Belmar,
T. Gebremariam, and D. McCarty ................................................................. 143

PEST MANAGEMENT: INSECTS

The Interaction Between Nitrogen Fertilizer Rate and Insecticide Seed Treatment for the Control of Rice Water Weevil
The Role of Rice Stink Bug in the Transmission of Bacterial Panicle Blight in Rice
   J. Gaspar, C. Minteer, R. Sayler, Y. Wamishe, T. Kring, and S. Raghu ............ 158

Stored-Product Insects Associated with On-Farm Storage in Northeast Arkansas
   T. McKay, M. Toko, B. Hale, R. Hampton, and L. Starkus ............................. 163

Efficacy of Selected Insecticides for Control of Rice Stink Bug, *Oebalus pugnax*, in Arkansas, 2013
   W.A. Plummer, G.M. Lorenz III, N.M. Taillon, H.M. Chaney,

A Historical Look at Rice Insecticide Seed Treatments from 2007 to 2013: Where Are We Now?
   N.M. Taillon, G.M. Lorenz III, W.A. Plummer, M.E. Everett,

**PEST MANAGEMENT: WEEDS**

Comparison of Growth Characteristics Between Halosulfuron-Methyl-Resistant and Susceptible Yellow Nutsedge Populations
   M.V. Bagavathiannan, J.K. Norsworthy, D.S. Riar, Z.T. Hill,

Influence of Rate and Application Timing on Rice Tolerance to Pyroxasulfone
   M.T. Bararpour, J.K. Norsworthy, D.B. Johnson, R.C. Scott,
   and T.L. Barber .......................................................................................... 188

Early-Season Palmer Amaranth Interference in Rice, Potential Yield Losses, and Control Options
   J.B. Brennan, J.K. Norsworthy, C.J. Meyer, R.C. Scott,
   J. Bond, and T.L. Barber ......................................................................... 194

Weed Control Demonstration of Five Rates of Benzobicyclon Applied at Two Maintained Flood Depths to Rice Weeds
   B.M. Davis, R.C. Scott., C.A. Sandoski, L.T. Barber, and J.K. Norsworthy .... 201

Response of the Conventional Rice Varieties Roy J and Wells to Low Soil Concentrations of Imazethapyr
   J.W. Dickson, R.C. Scott, and B.M. Davis ................................................. 206

Rice Tolerance to Sharpen®
   J.W. Dickson, R.C. Scott, and B.M. Davis ................................................ 212
Palmer Amaranth (Amaranthus palmeri) Control in Rice
J.R. Meier, L.T. Barber, R.C. Doherty, L.M. Collie, R.C. Scott, and J.K. Norsworthy ................................................................. 218

Control Options for Acetolactate Synthase-Resistant Smallflower Umbrella Sedge in Arkansas Rice
J.K. Norsworthy, D.S. Riar, R.C. Scott, and T.L. Barber ......................... 222

Use of CruiserMaxx® Rice Seed Treatment to Improve Tolerance of Conventional Rice to Newpath (Imazethapyr) and Roundup (Glyphosate) at Reduced Rates
R.C. Scott, G.M. Lorenz III, J.T. Hardke, B.M. Davis, and J.W. Dickson .... 227

Evaluation of Conventional and Hybrid Rice, Seeding Rate, and Herbicide Program on Barnyardgrass Control in Clearfield Rice

RICE CULTURE

Ammonia Volatilization and Rice Grain Yield as Affected by Simulated Rainfall Amount and Nitrogen Fertilizer Amendment

Rice Grain Yield as Affected by Simulated Rainfall Timing and Nitrogen Fertilizer Amendment

Development of the Arkansas Degree-Day 50 Thermal Unit Thresholds for New Rice Cultivars

Utilization of On-Farm Testing to Evaluate Rice Cultivars

Arkansas Rice Performance Trials
Effects of Insecticide Seed Treatments and Seeding Rates on Performance of Selected Rice Cultivars at Two Planting Dates

Evaluation of Optimum Hybrid Rice Seeding Rates on Silt Loam and Clay Soils

J.T. Hardke, D.L. Frizzell, E. Castaneda-Gonzalez,
M. Duren, and R.J. Norman ........................................... 281

Irrigation Water Requirements for Rice Irrigation Systems in Arkansas

C.G. Henry, E.D. Vories, M.M. Anders, S.L. Hirsh, M.L. Reba,
K.B. Watkins, and J.T. Hardke ........................................... 286

Grain Yield Response of Eight New Rice Cultivars to Nitrogen Fertilization

R.J. Norman, T.L Roberts, J.T. Hardke, N.A. Slaton, K.A.K. Moldenhauer,
D.L. Frizzell, M.W. Duren, and E. Castaneda-Gonzalez ....................... 293

Response of Two Rice Varieties to Midseason Nitrogen Fertilizer Application Timing

R.J. Norman, J.T. Hardke, T.L. Roberts, N.A. Slaton, D.L. Frizzell,
M.W. Duren, and E. Castaneda-Gonzalez ........................................... 303

Field Validation of the Nitrogen Soil Test for Rice (N-ST*R) for Rice Produced on Clay Soils

T.L. Roberts, R.J. Norman, N.A. Slaton, J.T. Hardke,
C.E. Greub, A.M. Fulford, S.M. Williamson, J.B.J Shafer,
D.L. Frizzell, and M.W. Duren ........................................... 311

Rice Grain Yield As Influenced By Nitrogen Source, Rate, and Application Time

C.W. Rogers, R.J. Norman, K.R. Brye, A.D. Smartt, J.T. Hardke,

Validation of Soil-Test-Based Fertilizer Recommendations for Flood-Irrigated Rice

N.A. Slaton, M. Fryer, T.L. Roberts, R.E. DeLong, R. Dempsey,
R. Parvej, J. Hedge, and C.G. Massey ........................................... 324

Rice and Soybean Response to Short- and Long-Term Phosphorus and Potassium Fertilization Rate

N.A. Slaton, T.L. Roberts, R.J. Norman, J. Hardke,
R.E. DeLong, J.B. Shafer, C.G. Massey, and S.D. Clark ....................... 332
Summary of the Nitrogen Soil Test for Rice (N-ST*R) Nitrogen Recommendations in Arkansas During 2013  
S.M. Williamson, T.L. Roberts, C.L. Scott, R.J. Norman,  
N.A. Slaton, A.M. Fulford, and C.E. Greub .......................................................... 339

RICE QUALITY AND PROCESSING

Quantifying Chalkiness and Fissured Kernels in Thickness Fractions of Long-Grain Rice  
B.C. Grigg and T.J. Siebenmorgen .................................................................. 345

Gene Expression and Physiological Analyses to Study Grain Filling in Oryza sativa Japonica Varieties Cypress and LaGrue Subjected to High Nighttime Temperatures  
N.L. Lawson, L.D. Nelson, P.A. Counce, K.A.K. Moldenhauer,  
T.J. Siebenmorgen, and K.L. Korth ................................................................. 352

Effect of Degree of Milling and Kernel Thickness on Milled Rice Fissuring Rates  
S. Mukhopadhyay, T.J. Siebenmorgen and A. Mauromoustakos ..................... 363

Milled Rice Fissuring Rates of Pure-Line and Hybrid Cultivar Lots  
S. Mukhopadhyay and T.J. Siebenmorgen ......................................................... 370

Exploring Rice Quality Traits of Importance to Export Markets  

ECONOMICS

Commodity Program Options for Arkansas Farmers Under the Agricultural Act of 2014: Analysis of Arkansas Representative Panel Farms
